## Antennas and Feeds

Optimised reflector arrays for enhanced performance in Yagi antennas by Justin Johnson, G0KSC	10
The LFA-R Reflector-less Yagi by Justin Johnson, G0KSC	16
Low Noise Direct Fed Yagis Explained by Justin Johnson, G0KSC	27
Feedhorn Analysis for Parabolic Dish G/T by Paul Wade, W1GHZ	39
Circular Polarization Feed for Space Communication on the 3 cm Band - Part 1 by Rastislav Galuscak, OM6AA et al	63
Circular Polarization Feed for Space Communication on the 3 cm Band - Part 2 by Rastislav Galuscak, OM6AA et al	78
EME with Adaptive Polarization at 432 MHz by Joe Taylor, K1JT, and Justin Johnson, G0KSC	103
Stacking beyond DL6WU - Part 3 An extended Chapter from the TANT Appendix by Hartmut Klüver, DG7YBN	117
SM5BSZ's BC.exe modified for frequency scaling and tested on 432 MHz by Hartmut Klüver, DG7YBN	132

Construction of a 432 MHz GTV 70-19m Blade Yagi by Hartmut Klüver, DG7YBN	151
Another Hybrid Antenna for 144 MHz by Slobodan Bukvic, YU7XL	164

## **Power Amplifier**

50W GaN Solid State PA for 10 GHz by Charlie Suckling, G3WDG	178
A Compact 75 W 144 MHz Solid State Amplifier using the AFT05MP075N by W7FSL, Freescale Amateur Radio Society	195

## **Transverters & Oscillators**

A high performance 144MHz transverter and power amplifier - The Anglian by Sam Jewell, G4DDK, et al.	212
Frequency Doublers for 122 GHz in split-block waveguide by Sigurd Werner, DL9MFV	234

## **Measuring Equipment & Miscellaneous**

Calibration of Noise Sources by Dino Fachin, IV3FDO and Mauro Ottaviani, IZ1OTT	238
How low can the NF go ? by Luis Cupido - CT1DMK	249
Adhesive reflective foil for measurements on dishes by Philipp Prinz, DL2AM	255
Self manufacturing of 'rectangular-like' WG parts by Philipp Prinz, DL2AM	259
High Q 2-cavity filter for 76GHz by Philipp Prinz, DL2AM	261

Magic-Tee for 24 GHz - Update by Charlie Suckling, G3WDG	266
Tests and measurements with the MMIC amplifier ECG008 by Henning Weddig, DK5LV	269

## **Software and Weak Signal Communication**

Aircraft Scatter on 10 and 24 GHz using ISCAT by Rex Moncur, VK7MO and David Smith, VK3HZ	276
--	-----

## **Propagation**

F-Region Propagation and the Equatorial Ionospheric Anomaly by Jim Kennedy K6MIO/KH6	287
Tropospheric Ducts: Equations and Radiosonde Data Analysis for Practical Insight by Marcus C. Walden, G0IJZ	322
Analysis of Meteor Scatter Pings - Part 1: The Scattering Process by Klaus von der Heide, DJ5HG	340
Analysis of Meteor Scatter Pings - Part 2: The Ping Development in time by Klaus von der Heide, DJ5HG	352
Analysis of Meteor Scatter Pings - Part 3: The Footprint of a Ping by Klaus von der Heide, DJ5HG	364
Analysis of Meteor Scatter Pings - Part 4: Some Practical Hints by Klaus von der Heide, DJ5HG	379
